Amanda Wang

Creative technologist and new media artist building interactive installations and real-time generative visuals, with work spanning body tracking, EEG biosensor data, and ocean-themed eco-art. Also creates 3D and motion visuals for live music tours, alongside print and digital design for a national medical society.

RELEVANT EXPERIENCE

Graphic Designer

ASCCP
2026 - PRESENT

- Design and refine print and digital marketing materials, including prospectuses, brochures, postcards, and presentation templates, for a national medical society

Freelance Designer

2026 - PRESENT

- Create 3D renders, motion graphics, and live event visuals for musicians and DJs, including producer Hoang's Second Chance Tour

SELECTED PROJECTS

Sensorium ARC at University of Maryland

2025 - 2026

- Collaborated with a multidisciplinary team on an ocean-themed interactive art/science installation; presented at ACM SIGGRAPH SPARKS and the CVPR AI Art Gallery

EEG Data Driven Interactive Installation

2026

- Real-time installation turning live EEG brainwave data into generative strange attractor visuals in TouchDesigner; presented at the University of Maryland Immersive Media Design 2026 Senior Capstone Showcase
